The Parties to the Rocky Flats Cleanup Agreement (RFCA) have finalized Appendix 3, the RFCA Implementation Guidance Document (IGD)

This document is a tool for the RFCA Parties to guide the planning, decision-making, and implementation of Environmental Restoration and decommissioning activities. Although it is not an enforceable document, the RFCA Parties will use it to review the adequacy of documents and work

The intended purposes of the IGD are to

- provide a "roadmap" of RFCA language for project managers,
- promote the understanding of and compliance with authorities outside of RFCA,
- standardize and expedite planning and execution of work,
- provide additional interpretation and clarification of RFCA, and
- illustrate the procedures for work prioritization and budgeting

The IGD includes information on technical approaches, contents of specific decision documents, implementation of accelerated actions and decommissioning, and risk assessments
